Summer vacation plans are still on pause for millions of homeowners, which means lots of people are looking for ways to turn their outdoor spaces into dreamy warm weather escapes. “People are craving the idea of taking a vacation,” says designer Sara Barney. “As a way to replace a tropical trip, homeowners have started focusing on making their outdoor living spaces feel like a destination-inspired oasis.”

Outdoor kitchens are a major trend for summer 2021. BILLY RHODES FOR LMD ARCHITECTURE STUDIO

Outdoor Kitchens

“The lines between indoor and outdoor design are blurring more and more,” says designer John McClain. “Our clients are looking for the exact same amenities that they currently have in their indoor spaces in their outdoor spaces. Outdoor entertaining areas are being kicked up a notch! Full kitchens with every appliance and amenity possible,” are becoming increasingly popular as homeowners seeks to extend the possibilities of life outdoors.
